

Working with the Web-client (desktop client)

Web-client (desktop client) contains the following components:

- browser to work with Web-services, including interaction with cryptography;
- Html and Javascript. These components are responsible for the displaying the Web-client interface.

Web-client (desktop client) interacts with the CSP service directly. You do not need to install either the Java API or a compatible browser. The interaction principle of all components is shown on figure 1.

Figure 1 – component's interaction

To call the address bar in the browser, you must press F4 (Fig. 2). To go to another site you need to enter its URL in the address bar and click the  button on. To return to the previous tab/website, you should click the  button or press the **Backspace** key on the keyboard. Refreshing the page by pressing **Ctrl+F5** on the keyboard.

Figure 2 – call the address bar

The functionality of Web-client (desktop client) does not change. However some features work differently compared to the ordinary Web-client:

-
- The screenshot displays the NSD trade repository interface. On the left is a navigation menu with categories like Dashboard, Registration, Reporting, and Settings. The 'Registration' section is highlighted, showing sub-items such as 'Processing' (1), 'Rejected' (111), 'Confirmation requests', 'Registered' (54), 'Pending', 'Reports', 'Statements' (42), 'Pending messages reports' (42), 'Tabular reports', 'Registly', 'Contracts', 'Transfers and execution', 'Master agreements', 'Documents preparation', 'Ready to send' (2), 'Drafts' (48), 'Deleted', 'Sent', 'Templates' (17), 'Formats converter', 'XML validation', 'Settings', 'File Gateway setting', and 'Documentation'.
- The main area shows 'Registration Messages in processing' with a table of messages. A red box highlights the 'Repository Web-client user guide' link in the top right. Below this, a red box highlights the 'Getting an access' and 'Technical support' sections, which provide contact information for sales and support teams.
- At the bottom, a red box highlights the footer information, including the copyright notice '© 2014, IT Global LLC', the support email 'support@repository.com', and the site's baseline version 'baseline-2951-pe5d2951 @ release_3'.
