The screenshot shows the CQG Trader application interface. On the left, a list of accounts is visible, including CQG_DEMOITG246, CQG_DEMOITG137, CQG_DEMOITG183, and CQG_DEMOITG158. The main window displays the 'Positions' tab, which shows a table of open positions. The table has columns for Instrument, Last, P&L (M), ΔDelta, ΔGamma, ΔVega, and ΔTheta. There are three rows of positions, all for the instrument 'CME ES FC U16 2180', with a quantity of 2 and a last price of 3.25. The right-hand panel shows the status of the fills and positions, both marked as 'Active'. A red box highlights the DDE server information, indicating the server is 'excel' and the topic is '[Book1]Sheet1'.
