

# Sent

The form contains a list of messages sent to the repository for registration (Fig. 1). After signing, the message is queued for sending. The status column displays the messages status: Sent or Queued for sending.

Draft name	Form	Last changed	Last changed by	Last revision	Send date	Sender	Status
CM021_524247.xml	CM021	2016-01-26 16:47	VRKITGLOBAL1A	3	2016-01-26 16:47	VRKITGLOBAL1A	Sent
CM021_524247.xml	CM021	2016-01-26 16:45	VRKITGLOBAL1A	1	2016-01-26 16:46	VRKITGLOBAL1A	Sent

Fig. 1 – Sent form

The table can be filtered by:

- instrument types. The button indicates that the filtering will be applied only to the selected instruments. The button indicates that filtering will be applied to all instruments, except for the selected instruments;
- last change date;
- attachment;
- name – search by the draft name;
- send date;
- parties (last changed by)

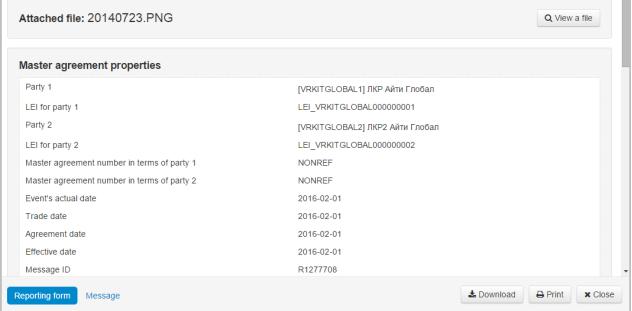

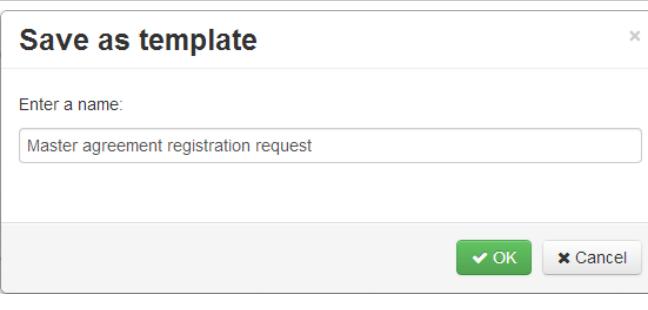

Fig. 2 – attached file

Clicking on the button opens a block of filters settings. After the settings has been specified, click the button to apply filtering. This will generate a table with drafts corresponding to the filter parameters (read more [here](#)).

The list of messages is displayed in the form as a table, the contents of which are similar to those of the [Drafts](#) form, except for additional information: date of sending and the name of message sender. If the file is attached to the draft, the icon will be displayed. The tools available for working with the drafts are described in Table 1.

**Table 1 – Description of the toolbar buttons**

Button	Description	Calling the form
--------	-------------	------------------

	<p><b>Calling the view draft form</b></p> <p>Clicking on the button opens the electronic form of the document, where you can view and print the data. Additionally, you can view the attached file.
