

Incoming/Outgoing UTI

To work with documents containing UTI code there are two tabs in Web-client:

- Outgoing UTI – contains outgoing documents with UTI, which was formed in the creating / editing form in the Web-client;
- Incoming UTI – contains incoming documents from other parties.

On the page:

- [UTI editing](#)

Fig. 1 – Incoming/Outgoing UTI form

Incoming/outgoing UTI form contains the following information:

- Draft name
- Form
- Last changed
- Last changed by
- Last revision
- UTI

Documents preparation Outgoing UTI						
Total: 6						
10 All						
☐	Draft name	Form	Last changed	Last changed by	Last revision	UTI
☐	CM041_14562.xml	CM041	2016-06-09 17:23	VRKITGLOBAL admin	1	✓
☐	CM081_2016-05-04T20-19-26.xml	CM081	2016-05-20 11:03	VRKITGLOBAL admin	1	✓

Select...

Fig. 3 – Filtering

Clicking on the  button opens a block of filters settings. After the settings has been specified, click the button  to apply filtering. This will generate a table with drafts corresponding to the filter parameters (read more [here](#)).

 To make the display user-friendly, you can customize some display settings (see [General Settings](#)).

UTI editing

 UTI is formed according to the Central Bank requirements.

You can Add UTI code on the [creating/editing form](#).

2. Click the **Apply** button.

UTI editing

UTI generating party	[VRKITGLOBAL4] ITGlobal test4
UTI generating party LEI	LEI_VRKITGLOBAL000000004
UTI template	Concatenation of UTI generating party LEI and 32 random characters A-Z, 0-9
